Dear Køpcke,

While I confirm your participation to the collective show in Germany, I communicate you that I've written to Köln giving disposition of mailing to your gallery twenty-two oil paintings and sixteen temperas and smaltos on paper.¹

Among these works you can choose the ones you think most suitable for the exposition. About the expenses, I think that in we three can share all, included the part of the sculpturist non more exposing. Let me know the amount of money I owe; you can keep it back from the sale of works, otherwise tell me how.

You can keep in your gallery the remaining paintings -those not chosen for the show- and represent me for the sale of them retaining the 33% on the prices - see the included list - I have kept low prices for facilitating the job and in the meantime for getting a larger divulgation of my art in Denmark.

Let me know something about. Best regards and wishes.

Sincerely yours,

La Regina
